

EDUCATION

Bachelor of Technology in Computer Science and Engineering
Bennett University

Oct 2020 - Present

- **CGPA** - 8.8
- **Relevant Certification** - Machine Learning, Data Structures, Fundamentals of Accelerated Computing with CUDA Python, Fundamentals of Deep Learning, AWS Academy Machine Learning Foundations, Computer Communications and Networks, Responsive Web Design(FreeCodeCamp), Flutter Development Bootcamp with Dart (Udemy) and Operating Systems.

TECHNICAL EXPERIENCE

Flutter Developer Intern

June 2023 — Present

Wormos

Remote

- Working as a Flutter Developer Intern
- Responsible for smooth and interactive app interface.
- **Skills:** Flutter, Dart, Figma and Firebase.

COLLEGE PROJECTS

Espresso Player

- Developed an machine learning system that recognizes facial expression with accuracy around 93%.
- Implemented the feature where the system captures the emotion of the user and suggest songs
- **Technical Skills:** Python, Machine Learning, Keras, Numpy, HTML, CSS
- Check out the [Project](#)

Ethos

- Developed a clean and intuitive interface for browsing news articles where articles are fetched from NewsAPP API
- Implemented news card on which users can tap and can read more on the news like Title, Published Date, Published At and description of the news article
- **Technical Skills:** Flutter, Dart, API, HTTP, shared preferences, Lottie.
- Check out the [Project](#)

SkyCast

- Developed a simple website to check the temperature of any city.
- Used the WeatherAPI to fetch the data.
- **Technical Skills:** HTML, CSS, JavaScript, API.
- Check out the [Project](#) and [Deployment](#)

Soundzie

- Developed a simple music player where the users can play the songs stored locally on their systems.
- Implemented a gaming feature where users can play games while listening songs.
- **Technical Skills:** Python, Numpy, Tkinter, Pyglet, Mutagen
- Check out the [Project](#)

SKILLS

Languages	Python, C++, Java, Dart, JavaScript, HTML, CSS, Latex
Frameworks	Flutter
Tools	Firebase, Figma, VS Code, Android Studio
Platforms	Linux, Web, Windows
Version Control	Git, Github
Database	SQL
Artificial Intelligence	ML, Deep Learning, NLP, IVP, Tensorflow, Keras, Scikit learn, Pandas, OpenCV, CNN
Communication	English, Hindi

ACHIEVEMENTS

Round 1 Cleared, Smart India Hackathon

2021
